

LIFELIGHT™

Redefining emergency lighting

Introducing a new benchmark in emergency lighting performance and design

The LIFELIGHT™ by Clevertronics offers unrivalled performance including a D40 spacing classification in an unobtrusive designer luminaire.

An amazing 60% increase in emergency lighting coverage compared with existing premium emergency lights. Use less in an installation. Less than a third of the standard battery size, half the power consumption and greatly reduced materials use. All this with an unprecedented lifetime lamp warranty.

The LIFELIGHT™ delivers superior sustainability, maintenance and cost outcomes - all in an attractive package.

Clevertronics®

Leaders in Evacuation Systems

LIFELIGHT™

- Market leading D40 spacing classification, unaffected by luminaire colour.
- Superior emergency lighting coverage.
- Less required and lower installed cost.
- Lifetime lamp warranty- never need to change a lamp.
- No dome required.
- Two 85lm/W high brightness white LEDs.
- Ultra low 2.2W standby energy consumption.
- Dual-rate charging technology for longer battery life.
- Less than a third of the standard battery size.
- Square or round heads in black or white standard colours.
- Single Point, Clever-test® or Zoneworks® testing options.

ORDERING INFORMATION

Detailed specification details including IES files available for download from the Clevertronics website.
